## 01. INTRODUCTION

cardPresso is the ultimate tool for your professional ID card production in a user friendly way, combining the easy design features with print and advanced encode capabilities on a full feature software application. It is provided in four editions: XXS, XS, XM and XL, that integrate the needed features for ID Card production.

XXS has the basic features for card design and printing using predefined templates, edit view for text data input, card/encoding view, barcodes 1D, WIA/TWAIN/DirectShow acquisition and magnetic encoding support.

XS adds .XLS, .CSV and .TXT database connection, database sources, card/encoding/database view, browse/find records and link image to DB field.

XM adds local MS Access connection, photo on database, FaceCrop tool for face recognition, 2D barcodes, smartcard plugin, batch print and search (query) database records.

XL adds ODBC connection, RFID contactless direct encoding, Internal and External RFID encoder support, Multi-Layout card designs, autoprint, conditional printing, operation Logs.

Create professional ID cards with top quality graphics and ready-to-use predefined templates including backgrounds, clipart, shapes and design tools like Image Editor.

## End User License Agreement

To use cardPresso you will need to accept the terms in the End User License Agreement. Please read through this agreement during cardPresso installation before use.

Note: the included DVD only contains Video Tutorials that run on PC or home DVD player. The installation files are all located on the USB key.
